No Host Bar**

Attorney James Buchal, Portland, Oregon : *Author of "The Great Salmon Hoax"*

Mr. Buchal was educated at both Harvard and Yale. He has a degree in Physics from Harvard and Law degree from Yale. He has handled many complex cases including issues involving the Endangered Species Act and the National Environmental Policy Act. He is very familiar with the issues surrounding the Klamath Dams and participated in the Bucket Brigade. He will explore the issues surrounding the politics of dam removal and environmental legislation.

Attorney Larry Kogan, New York, N.Y.: Mr. Kogan obtained a law degree from the University of Miami School Of Law, Coral Gables, Florida, his Masters of Laws in taxation from Georgetown University, Washington, DC, and his Bachelors of Arts in Philosophy and Political Theory from Boston University College of Liberal Arts, Boston, Massachusetts. Mr. Kogan has done extensive research on the issues surrounding the Klamath Dam and will concentrate on the constitutional issues and the KHSA as amended and the role of the FERC (Federal Energy Regulatory Commission).

It's Important to Support this Event Because

We must do all we can to retain the Hydroelectric Facilities.

If the dams are removed our power bills will be substantially increased; we will lose the ability to control in stream flow in the Klamath, lose vital flood protection and the fish hatchery. Most importantly without the dams the enviros will call on the water in the Scott and Shasta Rivers and related aquifers for fish in the dry summer months, putting our farmers and ranchers and our way of life at risk.
